

**Technical Data Sheet****OIL CATCH**

High efficiency absorbent

Description

Oil Catch is an inert and amorphous granular absorbent ideal for any kind of fluid substance dispersed to the ground. Oil Catch significantly improves the working conditions and increases safety of the working place. This extremely efficient product provides fast and effective absorption of various liquids, even those dangerous and polluting.

Properties

- NSF 3H certificate
- Physiologically harmless products
- Chemically and biologically stable
- Prevent bacterial growth
- Colour stability
- Maximum purity
