

**Technical Data Sheet****SOLVENT SPRAY**

Rust dissolver

**Description**

SOLVENT is rust dissolver based on hydrocarbon basis. Thanks to its excellent penetration properties dissolves quickly rust and rusty encrustations and releases screws, bolts, tacks, guides, springs, hinges, links and locks. This product dissolves also grease rests and greasy encrustations and dirtiness. Special additives are added in order to grant lubrication of friction points and cover all surfaces with smooth anticorrosive protective film.

**Properties**

- excellent penetration properties
- outstanding rust dissolving characteristics
- water displacing
- strong protective film assures excellent corrosion protection

Nils Solvent is available also in spray format.
