

## GLASSFLUID AFG SERIES

### VOLATILE GLASS CUTTING OILS

#### PRODUCT DESCRIPTION

Glassfluid AFG Series designed for glass cutting machines at glass industry. They are volatile glass cutting oil formulated by high-performance base oils and special additives.

#### APPLICATION / USAGE

They are used for cutting operations of flat glass, mirror and coated flat glass.

They are suitable for every brand glass cutting machine.

#### ADVANTAGES / BENEFITS

- They supply smooth surface after operations due to its special additives.
- They have the feature of easy washing.
- After operation they volatile at a short time so they do not leave oily layer.
- Due to the additives, they minimize wear. There is

no need to remove completely if dry surface is not required.

- Do not leave stain on the surface,
- Due to good spreading facility, they create oil film,
- They are resistant to oxidation and long-lasting,
- Increase productivity and decrease unit costs.

#### STORAGE

Protect from direct sunlight and rain. Store in the original closed drums and in covered areas. Storage temperature must be between (+5)-(+40)°C

#### HEALTH AND SAFETY

This product is unlikely to present any significant health or safety hazard when properly used in the recommended application. Used or waste product should not be allowed to contaminate soil or water. Used or waste product should be disposed of in accordance with local regulations. For further guidance on product Health and Safety refer to the appropriate Material Safety Data Sheet.
